Getting to grips with the **NEC Engineering & Construction** Contract

**- A day with Dr Martin Barnes,
the originator of the NEC -**

(ECSA CPD accreditation for 1 CPD point has been applied for)

Wednesday 26 August 2009

REGISTRATION

08:00 to 08:30

VENUE

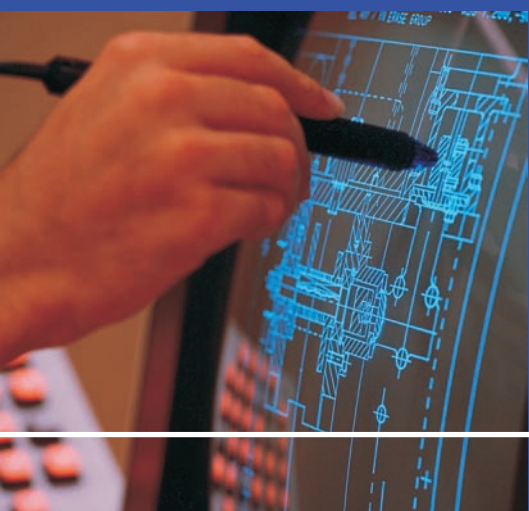

**Bytes Technology Group
Conference Centre
Midrand**

COST

R 2 109.00

Dr Martin Barnes, CBE, is the President of the Association for Project Management and originator of the New Engineering Contract (NEC). Martin invented the classic Time/Cost/Quality triangle and a number of other project management techniques over the years. He led the team that developed the New Engineering Contract (NEC), a system of contracts designed to facilitate and stimulate the use of modern project management across all the contributors to a project.

Andrew Baird is a member of the NEC panel now responsible for drafting of the NEC system of contracts and was the co-founder and first Chairman of the SA Division of the NEC Users Group. Dr Ron Watermeyer is an international expert in construction procurement and is currently developing a series of international standards for construction procurement.

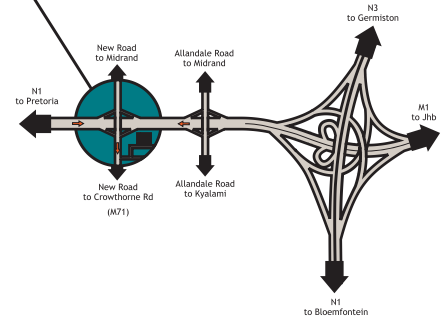

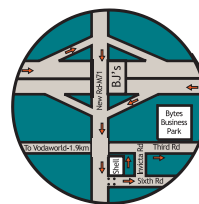

PROGRAMME

Time	Presenters	
08:00 - 08:30		Registration
08:30 - 09:50	Dr Martin Barnes	Why use the NEC on a construction project? <ul style="list-style-type: none"> • The drivers for the creation of the NEC • The distinguishing features of the NEC • The benefits from using the NEC on a project
