Work: 082 375 6800

Location

Province: Gauteng
Nationality: South Africa
Town: Johannesburg

Professional

Company Name: H K M Consulting (Pty) Limited
Job Title: Director
ICE Membership Grade: Fellow
ECUK Registration Level: C Eng

Contract Experience:

Hylton worked for a major Engineering and Construction company between 1973 and 2014.

Initially, Hylton worked primarily on civil engineering related projects. These works included undertaking design works and project managing major design and construct projects. This included power stations, bridges (including design and construct projects), dams, slides, chimneys (design and construct), and temporary works design for coal, industrial, rail, bridges and other civil projects.

Subsequently, Hylton worked on major roads, freeways, marine, water supply, power station, sanitation, and sewage reticulation schemes, dams, tunnelling, gold, coal, steel, stainless steel, paper, sugar, aluminium and mineral sands plants, rail maintenance and construction, and oil and gas works, amongst others. These projects were widely distributed around Africa, the Middle East and the

Caribbean and ranged from construct only to D&C, to EPCM, to EPC, BOOT and DBO projects.

From 2005, Hylton was intimately involved with a wide range of projects technically and commercially over an extended geographic foot print that included South East Asia, through Australasia to American Samoa.

On Hylton's retirement from the Aveng Group in May 2014 he opened up his own consultancy practice and is presently undertaking work in various engineering, risk and commercial fields for various clients.

Hylton has been intimately involved in many forms of contract in various jurisdictions, bespoke conditions of contract, various forms of specifications and methods of measurement and client specific specifications.

NEC Experience:

Hylton has been involved with a large number of contracts of various forms and types during his career. This has included FIDIC, NEC, JBCC, GCC and other forms of contract in other jurisdictions. He has also been an adjudicator and expert witness on several projects.

Hylton was involved with the NEC form of contract when it was first introduced by Andrew Baird at Eskom. Hylton has provided advice, compiled, and produced documentation, assisted in the development of arbitral and other statements of claim/defence and provided advice in relation to disputes and compensation events on various contracts for various private and public sector clients on several major NEC contract disputes, whilst consulting independently over the past few years. This has included work on various projects, which include power station, renewable energy, mining and oil and gas projects

Built Environment Experience:

Hylton has over 37 years post graduate experience in the Engineering and Construction industry.

Hylton joined LTA full time in January 1980 as a site engineer and has held various senior management positions throughout the Group for the 34 years working for the Group, including that of Director of LTA Limited, Director of Grinaker-LTA Limited, Managing Director Grinaker-LTA Civil and Earthworks and of Grinaker-LTA Engineering, Aveng Group Risk Manager/Executive and the Aveng Group Construction Advisor.

Hylton has had significant experience in working on numerous major local and international projects with both local and major international partners, clients and professional teams. This experience in large scale engineering projects includes procurement, tendering, commercial and technical evaluation, contract risk, and change, commercial and claims management, dispute resolution, and claims resolution techniques and procedures. These projects include;

- 860km Sasol Mozambique – Secunda Gas pipeline (EPC Contract)
- Durban Quay Wall and Associated works
- Wadi Wishka Dam - Libya
- Nelson Mandela Bridge (EPC)
- Segala Gold Plant - Ghana
- Sasol Butanol Plant
- N3 Toll Concession – Design, Construct and Operate
- Katumani to Wote Road – Kenya
- Kruger Mpumalanga International Airport
- Mozal Aluminium Smelter
- Polokwane Smelter
- PMC Headgears and underground work
- Sadiola Gold Plant and appurtenant works - Mali
- Maguga Dam - Swaziland
- North South Carrier Water Project – Botswana (D&C Contract)
- Bushy Park to Sandy Bay Road - Jamaica

- N3 Concession/construction (BOT)
- Saldanha Steel Project – Design and Construct
- Lesotho Highlands Project Tunnels and Appurtenant works
- Hulletts Aluminum Project
- Columbus Stainless Steel Project
- Sappi Saicor Project • Namakwa Sands Project
- Landau Coal Mine and Process Plant Replacement Project
- Olifantsvlei Sewage Works
- Katse, Bohlaha, Malibamatso and Peleneng River bridges - Lesotho
- F.W. De Klerk Free Cantilever Bridge, road and other structures, Design and Construct
- Tutuka No. 1 Chimney – Design and construct project
- Duvha Power Station - Main Station

On his retirement from the Aveng Group in May 2014 he opened up his own consultancy practice and is presently undertaking work for various clients in the UK, Africa, Mauritius and Australasia. Hylton has provided technical and commercial advice and support, drafted statements of claim, acted as an expert witness and an adjudicator for clients on several projects, and prepared and presented bespoke training courses in risk and change management.
